

ONLINE TICKETING – Team 2 (Dipanjan Sarkar, Ritu Sharma, Suvadra Tripathy)

Steps to run the application

There are two parts of the application :

1. BookMyMovie - Admin part
2. customer_jsp - Customer part

BookMyMovie - Instructions

1. Go to the apache tomcat directory
2. Open the "webapps" folder
3. Place the bookmymovie.war file in it or import it into eclipse
4. Run the "Team2_Datafile.sql" script provided in the Instructions folder
5. Run the "adminLoginPage.jsp" in "WebContent" folder
6. Remember to change the correct sql settings in com.admin.utils.RunTimeSettings.java
7. Login with the credentials : username: "Admin" and password: "secret"

customer - Instructions

1. Go to the apache tomcat directory
2. Open the "webapps" folder
3. Place the customer_jsp.war file in it or import it into eclipse.
4. Run the "Team2_Datafile.sql" scripts provided in the Instructions folder (no need if already done in admin part)
5. Remember to change the correct sql settings in Utils.RunTimeSettings.java
5. Run the "welcome.jsp" in "WebContent" folder.
6. You will be redirected to home page.
6. If you want to book tickets online, use the "register" link or "sign in" link.

Run the applications from google chrome to get the best user experience.
